

## SUMC Weekly Construction Update

- For the week of April 17 we are almost halfway through Phase 2 which means we will still not have any access to our existing public restrooms and kitchen. The new Men's Restroom will serve as a temporary Women's Restroom and the two existing Restrooms on the 2<sup>nd</sup> floor will serve as temporary Men's Restrooms. Since the temporary Men's Restrooms are not ADA (American with Disabilities Act) accessible, we must provide an ADA compliant facility for the Men. This will be an ADA temporary toilet on the sidewalk by the west side glass doors.

- We will have signage in place. Please familiarize yourself with our plan and if you see a confused visitor, please help them. We appreciate your patience and help as we make our way through Phase 2.
- The Parlor is also off limits.
