Re: Renovation to Begin January 30

Dear Sterling Church Congregation:

Yesterday, the Charge Conference gave final approval for our renovation project to begin. The contract with Chamberlain Construction will be signed today and work will begin next Monday, January 30, in Room 102. That space will be converted into restrooms. Later we will see renovation work begin in the narthex/lobby and kitchen. All work is scheduled to be completed by the middle of June.

If you have activities taking place in the church during this time of renovation, especially on the hallway where Room 102 is, please contact Maureen Harbour in the church office to ask how your activities will be impacted.

It is important that any communication with the general contractor or any construction worker in our building go through the church office and our building committee chair, David Printz. Any questions, concerns or comments about the renovation project should be directed to Maureen Harbour in the church office.

Thank you to everyone who supported this project with your prayers and your gifts.
Praise God, we are on our way!

In Christ,
