

Construction for the week of February 6, 2017

- Classrooms 102 and 104 will be off limits. We originally planned to shut down the hallway as well but we are able to be productive while leaving the hallway operational.

- You will notice carpet missing in the hallway by the bathrooms. We did this to score the concrete in preparation to install new plumbing lines. The bare concrete is safe.

- PLEASE AVOID THE NARTHEX UNTIL AFTER 3:00 PM EACH DAY NEXT WEEK. We are replacing the ceiling. It is important that no one comes through this area as the work is being performed. It will be safe for use after 3:00.
