

Construction for the week of January 30, 2017

- Our contractor will mobilize on Monday to begin the project.
- The area below will be off limits.

- Classrooms 102 & 104 and a portion of hallway will be completely inaccessible next week.
- You will have full access to the public restrooms.
- The main focus of work next week is for the subcontractors to become fully acclimated to the existing conditions of our building. We will build barricades to secure the area of work and begin demolition and concrete removal.
