

SUMC Construction Update. May 8, 2017

This week is a very active week in our renovation and we appreciate your patience. We are working on floor coverings throughout the church so please be careful and watch your step. We will not shut off access to the bathrooms but you may need to take an alternate route.

Starting this coming Sunday, Mother's Day, we will open the new Women's Restroom and turn the Men's Restroom back over to the men. We are still working on the kitchen, so for the next few weeks, this area is off limits.

Our next big hurdle is the office renovation. This is primarily new paint and carpet but we will need to remove all the furniture, filing cabinets, etc. in order to complete this work. For the next two weeks we will be packing boxes and preparing for the work. The office will be closed the week of May 22-26 and will reopen Tuesday, May 30. The church phone will be answered from 9 AM -12 PM May 22-26, but if you need to reach office staff, the best way to do that during that week will be via their church email.

Again, thank you for your patience as we come down the home stretch of our renovation project!
